Mathias Ertl

Curriculum Vitæ

Working in Software Development since 2010 as group and team lead, product owner, software architect and developer. Focus on AI, web apps, cloud computing, CI/CD, IT security and Linux.

Overview

Personal data
Mathias Ertl, BSc
Born November 6, 1984
Citizenship: Austria, United States of America

Professional résumé

Job objective
Team lead, technical lead, product owner, software architect

Key skills
15+ years in software development and leadership. Extensive experience in agile development and SCRUM, leading distributed teams and driving AI adoption. Deep knowledge in web applications, cloud computing, continuous integration, Python, Django, IT security and Linux.

Professional experience

01/2025 – present
Manager Software Development & Integration, *TTControl GmbH*, Vienna.
Lead a 6-person team focusing on AI adoption, Linux security and CI/CD:
- Grew the engineering team, hired two engineers to improve our AI and CI/CD capabilities
- Leading a company-wide AI adoption initiative, rolling out tooling to 40+ engineers
- Reduced release time from weeks to minutes through CI/CD improvements, enabling more frequent and reliable releases

10/2023 – 12/2024
Manager IoT Software Development, *TTControl GmbH*, Vienna.
Lead three international teams with 15 engineers, developing our cloud connectivity offering:
- Established SCRUM-based agile development in my first six months
- Established timely, high-quality quarterly releases in my first three months
- Streamlined processes, for a measured 50% reduction in meeting time for engineers

05/2021 – 09/2023
Global Core Development Manager, *UBIMET GmbH*, Vienna.
Lead three software engineering teams developing the whole product range:
- Reversed high employee turnover by investing in team culture and career development
- Led development of new features, contributing to architecture and implementation
- Consolidated fragmented tool landscape to increase efficiency

08/2017 – 04/2021
IoT specialist, *TTTech Industrial Automation AG*, Vienna.
Worked as SCRUM product owner, principal engineer and software architect. Also worked on CI/CD, project management, IT security, cloud computing and web development.

XING: Mathias Ertl • mathiasertl

07/2012 – 07/2017 **Senior software developer**, *Ciuvo GmbH*, Vienna.
Development in Python, Django & Twisted, CI/CD & cloud infrastructure, browser plugins.

10/2010 – 01/2013 **Freelance software developer**, Vienna.
Web applications in Python/Django and Linux system administration.

03/2005 – 02/2012 **Tutor/Teaching Assistant**, *Vienna University of Technology*, Vienna.
Administration, organization and support of courses on Interaction Design and IT & Society.

Education

03/2009 – 07/2012 **Master Software Engineering & Internet Computing**, *Vienna University of Technology*.
Completed all coursework; master thesis not submitted

10/2003 – 03/2009 **Bachelor Software & Information Engineering**, *Vienna University of Technology*.
Bachelor Thesis: TUn!x, a Linux distribution for students

1995 – 2003 **Federal High School**, *Marchettigasse 3*, Vienna.

Open Source development

django-ca A TLS certificate authority with CRL, OCSP, HSM and ACMEv2 support and more: `https://github.com/mathiasertl/django-ca/`

python Contribute to other projects, e.g. cryptography.

Certificates

SCPO SCRUM Certified Product Owner, 2019

Languages

German mother tongue

English mother tongue

Interests and soft skills
